

March 18, 2008

Dear Colleagues,

I am submitting the attached resolution for our Board's consideration. I encourage our Board to strongly support this effort to expand the role of volunteerism in our country and the world. If passed into law by the federal government, the American World Service Corps will provide opportunities for adult Americans of all ages to participate in meaningful service, choosing the existing organization that best matches their skills and interests. In return, valuable opportunities for medical, financial, and educational assistance will be offered to participants.

While this concept has a long road to becoming reality, our Board's public support today can show others that we recognize the powerful and cost effective role that volunteerism plays in our nation. I would appreciate your support.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Kinsey". The signature is fluid and cursive, with a long horizontal stroke at the beginning and a large, sweeping flourish at the end.

Steve Kinsey
